

## FEH celebrates the end of academic year

*On July 19, Faculty of Education and Humanities decided to celebrate the end of Academic year 2017/18.*

This academic year was very busy, demanding, and sometimes even hard, but it all paid off for the Faculty of Education and Humanities, since it managed to carry out a couple of successful projects. This year, the Faculty organized the competition for high school students “Let’s Enjoy English,” the multidisciplinary 5<sup>th</sup> International Student Symposium, as well as several departmental projects. Also, the first issue of the Journal of Education and Humanities is coming out soon.

Thus, after a year of classes, exams, and extracurriculars, staff members decided to relax in the nature with a barbeque. The beautiful natural site, Stojcevac, very well-prepared meat, and amazing weather, contributed to the overall happy and satisfied mood.
